# MAGNETIC GLASS MARKER BOARD

## Personalized, markable lacquered glass cupboards and display boards

### Description

Following its vision of continuous innovation GLASSOLUTIONS has developed a personalizable magnetic lacquered glass. It is a new element of decoration made to harmonize with any interior. Reflection and refraction of light on these surfaces create fascinating effects that vary

according to ambient conditions. The VITRIO range of lacquered glass also allows for limitless colour choice. MAGNETIC GLASS MARKER BOARD is basically an extra-clear DIAMANT glass with a thickness of 4 mm on the back of which is applied an extremely hard-wearing lacquer, then a metal plate. This results in a magnetic lacquered glass.

Ideal for magnetizing photos or directly writing your shopping list, the MAGNETIC GLASS MARKER BOARD can also be an element of decoration in itself. The dimensions and colours of the MAGNETIC GLASS MARKER BOARD can be totally personalized. It is also imprintable thanks to a digital printing technique developed by GLASSOLUTIONS.

# MAGNETIC GLASS MARKER BOARD

## Applications

The MAGNETIC GLASS MARKER BOARD may be used for all lacquered glass applications in:

- bathrooms;
- offices and schools;
- residential environments;
- living and storage spaces;
- kitchens, for cupboards as well as magnetic board or message board;
- mirrors;
- partitions.

It can also be nuanced with touches of colour to match furniture surfaces, cupboard doors, etc.

## Advantages

From matt to gloss, the colours of the MAGNETIC GLASS MARKER BOARD offer an endless palette of shades and hues in perfect harmony with any type of interior decoration, and can be personalized to suit any taste. A variety of dimensions, markings, digital printing, colours, logos and many more options are available for this product.

Maintenance is extremely easy with a clean, soft cloth; however the lacquered glass is also durable enough to resist all kinds of household products and most chemical products. MAGNETIC GLASS MARKER BOARD transforms wall spaces into innovating presentation systems.

This glass-based product is a new highly intuitive element of communication which can serve as a display for drawing, writing or

magnetized objects while bringing high class design to interior spaces, offices or even schools. The magnetic board produced by GLASSOLUTIONS is friendly to the environment, made of 95% recycled materials. It is an exceptionally hardwearing product with a useful life at least equivalent to that of the wall on which it is mounted.

# MAGNETIC GLASS MARKER BOARD

## Range

MAGNETIC GLASS MARKER BOARD can be made to suit any desired size and choice of colour. The maximum length is 3.300 mm for a maximum surface per glass panel of 4 m<sup>2</sup>. The maximum weight for the 4 mm glass is 10 kg/m<sup>2</sup>.

MAGNETIC GLASS MARKER BOARD can be created from all opaque glass products available in 4 mm:

- DECOLAQUE/MY DECOLAQUE/DECOLIT;
- MY DECOPRINT;
- PLANILAQUE;
