PROCESSING CAPABILITIES

SGG BIOCLEAN can be easily processed to combine several functions and be integrated into:

double- glazed units

SGG STADIP SILENCE acoustic laminated glass, or SGG STADIP or SGG STADIP PROTECT safety glass.

SGG BIOCLEAN can also be toughened, heat- strengthened, heat- soak tested, curved or enamelled (enamel applied to the non- coated side).

PRODUCT APPLICATION

SGG BIOCLEAN has been designed for external use, either in the home or commercial buildings, both for new- build and refurbishment projects, including:

Windows and external doors

Skylights, overhead and atria glazing

Conservatories, roofs and patio doors

Glazed façades

External shopfronts

Display windows

Street furniture

SGG BIOCLEAN is the ideal cleaning solution for external glazing that is exposed to light and rain.

SGG BIOCLEAN can be used in all environments and is particularly effective:

In an urban environment

In the countryside

In seafront locations

In heavily polluted areas (e.g. areas close to heavy traffic, nearby airports, railway lines or industrial estates)

ADVANTAGE

The most neutral self- cleaning glass available - no unsightly tint or reflective surface. Looks just like normal glass!

Less frequent cleaning – windows stay cleaner for longer.

Much easier cleaning - less dirt and grime adheres to the glass.

Save money - the cost of window cleaning is reduced.

Ideal for hard to reach areas - clean where you have never been able to clean before!

Permanent coating - lasts the lifetime of the window.

Environmentally friendly - less frequent use of water and detergents.

Now available with an advanced performance solar control coating.

GUIDELINE

SGG BIOCLEAN can be easily processed to combine several functions and be integrated into:

double- glazed units

SGG STADIP SILENCE acoustic laminated glass, or SGG STADIP or SGG STADIP PROTECT safety glass.

SGG BIOCLEAN can also be toughened, heat- strengthened, heat- soak tested, curved or enamelled (enamel applied to the non- coated side).
