

MASTER- SOFT

Source of light and softness

DESCRIPTION

MASTER- SOFT is a tactile material which catches the eye and is pleasing to the touch. The glass has a soft texture with a quilted pattern and a fine- grained touch. It conveys a background blur, becoming blurred as the body moves away.

RANGE

MASTERGLASS range **MASTER- SOFT**

PRODUCT APPLICATION

Light screen, internal structure, furniture, MASTER- SOFT is all at the same time. Its structure is an ideal place for the interplay of light and its contrasts.

It is ideal for use in the home, offices, shops, hotels and restaurants.
Its applications are limitless: furniture, partitions, shower screens, doors, windows ...

ADVANTAGE

Modern design: a matte, soft and flexible texture, structured by two diagonals. A state-of-the-art design.

Maximum light while maintaining privacy.

Optional safety. As with all MASTERGLASS glass, MASTER-SOFT can be toughened to ensure a better level of safety and meet current regulations.
