

DECORGLASS

Traditional patterned glass

DESCRIPTION

DECORGLASS is a patterned glass which has a texture printed onto its surface. Available in a wide range of patterns and colours, it provides an infinite choice of styles and variations. A piece of clear or tinted molten glass is passed between two rollers, which emboss the pattern into the sheet, providing a highly durable finish.

RANGE

DECORGLASS offers a large choice of patterns and is available on clear, grey, yellow and bronze substrate. Download our brochure and discover our products.

PERFORMANCE

Light transmittance

DECORGLASS clear: from 80% to 90% depending on the pattern reference and thickness.

DECORGLASS clear wired: approximately 80%.

A large percentage of the light is transmitted by means of diffusion.

Translucency

Each patterned glass reference is categorised by a visual screening coefficient i.e. facilitating the selection of a suitable pattern to achieve the desired level of obscuration.

Heat transmittance coefficient

U- value = 5.7 W/ m²K

PROCESSING CAPABILITIES

Depending on the pattern reference and thicknesses DECORGLASS can be:

Edgeworked

Curved- Silvered (MIRALITE CONTRAST) or enamelled (EMALIT CONTRAST)

Tempered or laminated* for safety purposes

Incorporated into STADIP SILENCE acoustic PVB safety laminated glass* - Assembled into double- glazed units for thermal insulation

* the patterned side must face the outside of the assembly.

PRODUCT APPLICATION

DECORGLASS is used for interior or exterior applications and is ideal for creating bright and private spaces.

DECORGLASS offers an extensive range of designs, colours and textures that are suitable for the decoration of residential, offices or commercial premises:

Windows

Doors

Partitions

Shower and bath screens

Furniture (office furniture, table tops, countertops, shelves)

Internal and external crash barriers

Street furniture

ADVANTAGE

Light and privacy

DECORGLASS separates areas and provides maximum light and privacy, as well. This helps to:

Give the feeling of increased space in smaller living areas by diffusing and spreading light

Create a relaxed and intimate atmosphere by screening direct sight or vision

Tradition and design

Various patterns are adapted to both classical and modern environments.
