## PRODUCT APPLICATION

### Interiors:

Partitions, doors and sliding doors, floor panels, counters, displays cases, bak screens etc  
Back projection

### Exterior:

Windows, single or double glazed facades  
Opaque back projection screens/ multi- media walls

## ADVANTAGE

Switchable glass: Becomes transparent or translucent instantaneously at will  
Glass consumes low power (5 W/ m<sup>2</sup>)  
Curtains and blinds become redundant  
This glass can be curved, silk- screen printed or sand- blasted  
Excellent projection screen; uses reliable material, tested as per CE and URL standards  
Ideal for hiding retail products meant for select customers
